No. 31

Successful Grade XI and XII Students

The following students in Grade XI in the Didsbury High Schools have been reported as being successful in their recent departmental examinations:—

Ruth Brubacher
Winnifred Arlendsen
Lois Clemens
Winnifred Moyle
Frances Larson
Iona Larsen
Irene Walder

The following must satisfy the Department before being given a full standing in Grade XI:—

M. E. Archer, Geometry
Dulcia Smith, Algebra and geometry.

GRADE XII

Aylmer Liesemer
Robert Eubank
Henrietta Henderson

One or two of Grade XII students were unable to attend school during the examinations through illness.

A. E. Bowers, a farmer of the Aldrie district, was fatally injured on Saturday evening when his Ford auto, which he had just purchased, collided with a Studebaker car driven by a man by the name of Burslem, of Crossfield. Bowers was taken to the Calgary General Hospital but died shortly after.

BORN:—At the Didsbury General Hospital, Wednesday, July 26th, 1922, to Mr. and Mrs. Frank Gooding, a son.

BORN:—At the Didsbury General Hospital, on Thursday, July 27th, 1922, to Mr. and Mrs. Walter Umbach, Carlstars, a son.

BORN:—At the Didsbury General Hospital, on Monday, July 31st, 1922, to Mr. and Mrs. Hugh Brooke, a son.

Presbyterian Sunday School Picnic

The kiddies of Knox Presbyterian Sunday School were treated to their annual picnic on Wednesday of last week. Autos and trucks were kindly loaned to take them out to the Dog Pound creek where a full afternoon's sports were indulged in and the children were provided with so many good things to eat and drink that it's a wonder their little tummies didn't protest for a week.

The committee who had charge of the affair and who helped to make the picnic such a success were: H. W. Chambers, E. E. Freeman, J. M. Reed, A. G. Stender, T. Thompson, N. Christie, Dr. Malmes, A. W. Axell.

The winners in the different events were as follows:

Boys 14 and over—Golin Campbell, Tom Reed, W. Bursell.

Boys 11 to 13—Gordon Morrison, Roy Guy, Geo. Geiger.

Boys 9 to 10—Leonard Thompson, Henry Stuart, Gus Geiger.

Boys 6 to 7—Thos. Clarke, Wesley Reed, John Morton.

Girls 13 and over—Manie Kerroberts, Helen Reed.

Girls 10 to 12—Edith Chambers, Hester Campbell, Annie Morton.

Girls 7 to 9—Margaret Geiger, Peggie Campbell, Ivy Stuart.

Girls 5 to 6—Jessie McCoy, Happy Lowrie, Maisie Sinclair.

CARD OF THANKS

Mr. and Mrs. Albert Vogel wish to thank their many neighbors and friends who so kindly came to their assistance when their barn burned down.

Wages for Farm Help for Harvest

At a meeting held in Winnipeg last week when representatives from the railways and United Farmers organizations of Manitoba and Saskatchewan were present as well as J. W. Mitchell, director of the Alberta government employment service, representing Alberta, it was decided that a uniform scale of \$3.50 for cutting and \$4.00 per day for threshing should be the scale of wages paid to farm help this season. This includes board and lodging.

Harvest trains from eastern Canada will commence operating the first week in August. Manitoba and Saskatchewan will be supplied with men from the east and Alberta's quota will be drawn from B. C.

Besides the men already in the provinces it is estimated that Saskatchewan will need 25,000, Manitoba 15,000 and Alberta 10,000. All the harvest help for Alberta will be brought direct to Calgary and distributed from that point.

Legislature Sustains Wheat Board

The Wheat Board Bill to pass which a special session of the Alberta Legislature was called has been passed by parliament and now becomes operative as far as Alberta and Saskatchewan are concerned.

No division and no vote was taken during the session of the house but outside of a little political fireworks from one Liberal member everybody seemed to be pretty unanimous that the Wheat Board should be created. The bill just passed by Alberta follows the Saskatchewan bill which was published in last week's issue of the Pioneer.

The question of sessional indemnity for the members attending the session which has caused considerable speculation has been settled at \$250, or a total for the whole of \$15,250. This of course is only the cost of the members' indemnity for the wheat board session; there are several other items that will add to this considerably.

SIGNS OF PEACE IN U. S. RAILWAY STRIKE

CHICAGO, July 30.—Peace terms already have been agreed to in the country-wide railway strike and formal ratification has been assured through President Harding's efforts. It was asserted last night by a man in close official touch with the situation.

All that now remains before the strike, which has cost the workers upward of \$10,000,000 in wages, passes into history, it was asserted, was the formal endorsement of the terms of settlement by the railway executives meeting in New York and the strike leaders who will convene in Chicago at the same hour on Tuesday.

All Games of Chance Now Prohibited

All Such Devices Even At Church Bazaars Banned By Criminal Code

Exit the Kewpie dolls and the gaudy Indian blankets from the "midways" of western exhibitions. No longer will the "wheels of fortune" spin for the edification of those who "take a flyer," or for the financial benefits of the crookiers. The recent amendments to the criminal code passed at their last session of the Canadian parliament's responsibility for this change from the good old days. Even church bazaar must operate differently in future, for all games of chance or mixed chance and skill are from now on taboo.

Copies of the new amendments have been received in the city, and are to the effect that they entirely eliminate as being lawful, all such games as playing the wheel of fortune for Kewpie dolls, blankets, silver ware and even for cigars. Not only do the amendments affect the person operating the games but also those assisting in the operation.

For the amusement of violating the new amendment, a penalty of two years' imprisonment is provided with a maximum fine of \$2,000. Calgary Herald.

The grasshopper war cost the province of Alberta \$450,000 this year. The municipalities pay one half of this amount.

"Biggest crop in west since 1913," says A. Kelle, Winnipeg resident Canada West Flour Mills, Grant Hall, Vice-President C. P. R. "One of best crops western Canada ever had." These men have just completed a careful inspection throughout the west. Oh, well, they evidently took no notice of the Didsbury district which cannot measure up to either statement this year.

No More Coal for Canada from U. S.

TORONTO, July 31.—Regarding the announcement from Washington that Canada will have to look out for herself in the matter of a supply of coal it was learned that the federal authorities at Ottawa had already asked the merchant marine to report on the importation of coal, more particularly from Wales and Scotland, and a report is being prepared.

Nick Topoff, a C. P. R. section hand, was thrown off a moving freight train at Mazepa, south of Calgary, last Friday and had both legs crushed.

H. W. Wood, President of the U. F. A., hopes that now the Wheat Board has become law that no one will be lost in making arrangements to handle this year's wheat crop.

There will be no strike of railway shopmen at the Ogden shops, Calgary.

The big countrywide railway strike which has been conducted in the U. S. for some time is practically settled all that remains to be done now is the formal ratification of the peace terms between employers and employees.

Toronto coal consumers are talking about bringing coal from Alberta to supply Ontario as the importation of coal from Wales seems an impossibility. It is figured that Alberta coal delivered in Toronto would cost between \$22 and \$23 a ton.

CARD OF THANKS

We wish to thank the kind neighbors and friends who have shown to us their deepest sympathy and helpfulness in our sad bereavement of our little Katie, also for the many beautiful floral tributes.

Mr. G. Shultz
Miss Esther Schultz.

A POISON STOREHOUSE
IN EVERY HOME

You may not think so, but that's what happens to everyone of us when the kidneys are affected. The kidneys are the filters that remove from the blood the waste matter that acts as a deadly poison on the vitality and health of the system. Dr. Hamilton's Pills stimulate the kidneys, expel the poisonous matter from the bowels, restore the liver and stimulate all excretory organs. No medicine will clean up the system, tone the blood, make you feel fit and fine as quickly as Dr. Hamilton's Pills. Useful and needed in every home. Dr. Hamilton's Pills of Manitoba and Hamilton, 220, Adelaide, and The Caffeine Co., Montreal.

MY
CANADA— BY —
ELINOR MARSDEN ELIOTPublished by Special Arrangement
with the Author

(Continued)

"You may be sure we were very quiet, and when Mrs. Black spoke to her husband after a few minutes we all jumped."

"Sandy," she said, "can you not take to what the bairns are doing?"

"Sandy" was a good-natured man whose easy ways were a sore trial to his energetic wife. "Whist, woman," he replied soothingly, "let the bairns have their play. They'll be sad soon enough, eh, Donald?"

Here Mrs. Livingston paused, and gazed, who had heard the story before and so knew what was expected of the audience, said eagerly:

"So Sandy and Donald were the bairns, were they?"

"That they were, my girl. And in course of that night Donald took Livingston and I married Sandy Morrison."

"But what about Margaret?" I asked.

"Ah! my dear, that is the strange part of the story," and Mrs. Livingston lowered her voice to a whisper. "Mrs. Black went into the bedroom, and while we could not hear her heartily she called some question to her good man. 'No,' replied he, 'I drew a blank.'"

"How we girls did laugh at Margaret, for we read the oracle to mean that she would never marry. And would you believe it, she never did. The man she was promised to was lost when he was out hunting, and Margaret lived and died a single woman."

"Well, well those were the good old days," sighed Mrs. Livingston. "Not that I'd be advising any young folks to try their fortunes as we did, though. The book says, in Matthew xix and thirty-four: 'Sufficient unto the day is the evil thereof.'"

Anaemia

Thin, watery blood is no more nourishing than thin, watery milk—thin milk.

But you can see which thin blood, overcome the anaemic condition and build up the whole system by using Dr. Chase's Nerve Food.

Mrs. F. G. Simmons, 42 Curtis St., Bradford, Ont., writes: "For about eight years I suffered from anaemia. My circulation was poor, my gums and lips were pale, and my hands and feet were always cold. I was nervous and unable to sleep well. I had frequent headaches, neuralgic and easily worried or irritated. There was a buzzing sound in my ears. Indigestion was one of my complaints, and I often was attacked by weak spells. I sent to a doctor, who told me I was anaemic, but as I did not get any better I decided to try Dr. Chase's Nerve Food, and after the first box I felt lighter and my head no longer ached. I had soon gained weight, and my appetite disappeared. I continued using the Nerve Food for quite a while. I am now well now, and cheerfully and gratefully recommend Dr. Chase's Nerve Food to people suffering as I did before I used that splendid medicine."

Dr. Chase's Nerve Food, 50c a box, all druggists, and Hamilton, Bates & Co., Limited, Toronto.

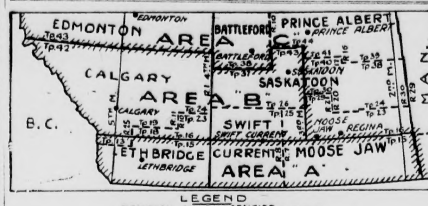

Government Land Settlement Policy

Available Dominion lands in the provinces of Manitoba, Saskatchewan and Alberta, and the Peace River Block in the province of British Columbia, are in future to be dealt with by areas, as designated on the accompanying map.

Area A—This area comprises the lands lying south of Township 16 in

Land Agencies, in the provinces of Saskatchewan and Alberta, lying north of Township 15 and west of the Third Meridian.

Vacant and available Dominion lands in this area are being inspected, and such as are found suitable for settlement will be available for entry on the usual terms. The residue of such lands will be available for application

the provinces of Saskatchewan and Alberta.

The right of entry is withdrawn in this area. Vacant and available Dominion lands therein, however, are open for applications for leasing for grazing purposes.

Area B—This area comprises lands within the Lethbridge, Calgary, Swift Current, Moose Jaw and Saskatoon

the evil thereof," and the Book is always right—in spite of my higher critics. Higher than what? 'I'd like ask them.'"

I wish that I were able to describe as it should be described the afternoon and its activities—to come back to the twentieth century.

Quoting again from the Argus: Prominent citizens had, as per usual, prepared a lengthy programme of sporting events. The five-hundred and classical tug-of-war, between the Dickies and the Benedicts was arranged in interest only by the Married Ladies' race and the Baseball throwing contest for Unmarried Ladies.

The last-mentioned event was won by a newcomer to our town and country, and we congratulate Miss Marion Elia (late of Winnipeg, England) upon her prowess. During the afternoon our local band, under the able leadership of the Reverend Bernard Hartford, of St. George's, discoursed sweet music to the delight and edification of all assembled. There is a whole column more, but this is enough to make the Argus interesting when it is backed up into a corner. That last phrase is Mr. Fike's.

Under the Argus cannot do justice to the Baby Show, our Cockney friend won first prize with their month-old "Helen Arriet," the prize being a hankie in which ten dollars was shown to the credit of Ellen Harriet. After a succession of mild hints and direct questions I learned that the prize had been donated by the stationmaster and hall by the Maesey-Harris agent—crisis and back-story, both, if one were to judge by appearance.

And the band! It consisted of one cornet (slightly off key), a fife, two violins, a piccolo, and an accordion, and the picture of Mr. Hartford, who during this motley crew through the intricacies of "Rule Britannia" was my last hope. When they came to "Arose, arose, arose," the fife, after one superhuman crescendo, gave out.

"Faith, that had must be a Home Ruler," remarked Mr. O'Hara. The baseball match, between the Town of Elia and the Early Settlers, is also being my powers of description. The excitement caused by it was marvellous, as was the noise made by the onlookers. Mr. O'Hara and Mr. Milne, on each side of me, were yelling bloodthirsty directions to their favourite players, and Reginald and Percival watched the game as if the fate of empire depended on it.

"Wouldn't you enjoy it all just as much if you did not wear your thumbs out?" I asked Mr. Milne.

"Oh, I don't know that we should," he replied. "We Canadians are rather primitive in the expression of our emotions, you see."

I thought for a minute that he was offended, but I changed my mind when, at the next brilliant strike, he clapped his hands greatly, and said "conventional life," "Jolly well played, old chap!"

The Town of Elia was. Don't ask me what the Elia was.

By eight o'clock that night I could have gone to sleep in an iron foundry.

—but I would not have missed the experiences of the day for worlds.

I return to Winnipeg tomorrow, and I shall leave Elia with sincere regret. It is probably unnecessary for me to say that I know very little more about dairying and poultry raising than I did two weeks ago. But then just think of all the other things that I have seen and learned! There are more things in heaven and earth than our little brains can comprehend, and I am not ashamed to admit that the afternoon dairies and hens do not play so prominent a part in my scheme of life as they once did.

tions for leasing for grazing purposes.

Area C—This area comprises all the territory lying to the north and east of areas A and B. In the provinces of Manitoba, Saskatchewan and Alberta, and includes the Peace River Block in British Columbia.

Disposition of the available Dominion lands in this territory will be continued as in the past.

Perhaps the air in Canada is unsettling. Perhaps with hens, as in other matters, familiarity breeds contempt. Perhaps, but why search for reasons? I have, at least, come to the conclusion that Canada is to be preferred to even a model dairy.

Canadians to the most fascinating of hens, and human interest to bank interest.

Some day I shall have my farm, but for a few months at least I shall indulge my wanderlust and take with me the Fates are pleased to send. It is still my intention to obtain a position as working companion. I consider that in this way I can best get to the heart of Canadian life. And I want to feel that I am more than a mere visitor in the land. Teaching is out of the question, for governesses are not in demand, and my theories on education are not such as would recommend me to any well-regulated School Board.

Work, I am not fitted for, nor should I like it. So, on the whole, my original plan seems the most satisfactory, even under changed conditions.

The Fikes have asked me to stay with them for a couple of weeks longer, but Mary Arnold also is begging for the honour of my distinguished company, so I must leave. Then, too, Mrs. Fike has succeeded in finding a real "third girl," a Scotch lass whose accent is so broad that she has to go sideways through the doors. I do not think that she will last long. I do not mean to say that she shows any signs of being a good life in a hurry—far from it! But she is pretty, in a sensible, everyday fashion, and the hungry young barometer of Elia ever get a smell, much less a taste, of her cooking. Mrs. Fike will have to advertise to life on her own experience has taught the Fikes one lesson, however—Jeanie is given a contract to remain with them for one year.

(To be continued)

Bees Know Time of Day

Knew at Least When It Was Time to Look for Sweets

The question as to whether or not bees are able to tell the time, has been solved, to life's own satisfaction, by a French expert. He began by breakfasting in the open air at 7 a.m., partaking of light preserves. At the noonday meal his sweets were served, but at 4 p.m. there was a light touch of sweets. Within a week all the bees in the neighborhood got wind of what was going on, and the table was swarmed with them regularly as clockwork daily at 7 a.m. and 4 p.m., but there were none at noon. Subsequently a jar of jam was placed in a window for the first five minutes of every hour during the day. The bees made hourly visits with such regularity that the time of day could be judged without reference to a clock.

There is very little bee manufacturing in England, the greater bulk of it being imported from Norway in special fast wooden ships.

A Queer Animal

Long-necked Sea Lizard Could Bite Tree In Two

A good many hundred thousand years ago there were various queer animals on this earth, and one of the queerest was a creature that is known today as the long-necked sea lizard.

Some far from pretty animals had a body shaped somewhat like a chair with a snake-like neck and a head that resembled a duck's, while it was thrust through the water by four flippers and a short tail.

An idea of their size can be gathered when it is known that a single tooth was a foot or more in length, and its head, the smallest part of its anatomy, was six feet long.

A tail length of 60 feet would be a giant by any means, and there is reason to believe its strength was so great that a single snap of the jaws would be powerful enough to cut through a tree with a 26-inch circumference.

It lived almost all of the time in the sea, and dived off fish and other marine food. Its battles must have been terrific, as skeletons have been found where great pieces of vertebrae have been torn out, evidently from the living creature.

Colonization of Irrigation Lands

Alberta Government authorities announce that plans are about to be drawn up for the colonization of irrigation lands and a comprehensive settlement scheme put into operation. Listing of lands in the Lethbridge northern district has been completed and a total acreage of 36,000 acres of improved farm land is available for settlement at prices ranging from \$12.50 to \$35.00 per acre.

Amateur Mountaineer

Climbs Mount Victoria

Accompanied by Swiss Guide Succeeds in Reaching Summit

Val A. Flynn, of St. Louis, amateur mountaineer, and Rudolph Amer, Swiss guide at Chateau Lake Louise, succeeded in climbing the face of Mount Victoria, 11,600 feet. This is the first time this feat has been performed. All the morning spectators in front of the Chateau crowded around the big telescope watching the climber's perilous ascent. They left the Chateau a few minutes after midnight and reached the top of the glacier in the mountain's face at 4 a.m. Then from the altitude of 9,000 feet they struck straight upward toward the summit reaching a point 600 feet from the top. Amer was seen to cut steps up the sheer wall of ice for 250 feet. Evidently he could go no further and retracing his steps, the climbers made a traverse to the right and reached the summit at 1:15 p.m. This is their fourth and only successful attempt.

Southern Alberta Wheat Shipments

From September 1st, 1921, to May 20th, 1922, a total of 6,400,000 bushels of wheat had been shipped out of the Lethbridge division of the Canadian Pacific Railway, which includes the territory from Okotoks south to the boundary and east to Dunmore junction near Medicine Hat.

≡ Didsbury's Twentieth Exhibition ≡

Thursday and Friday, August 17th & 18th, 1922

The DIDSBURY EXHIBITION for twenty years has been a stimulant to the Agricultural Industry in this district. It has been a keen incentive towards the breeding of better livestock, poultry and all agricultural products. The competition it has created among the Didsbury farmers is largely responsible for the high class of livestock, and advanced methods of farming to be seen in this district today. The good it has done is reflected on every hand in the community.

The DIDSBURY EXHIBITION has been constantly improved from year to year. Everything of doubtful value to the interest of the Fair have been carefully weeded out and new features added from time to time to increase its value as an Educational Institution. It is entirely devoted to the interests of LIVE STOCK, FARM and HOME PRODUCTS, and CLEAN AMUSEMENT. All side issues have been eliminated.

The hard times of 1922 are a demand for more intensified methods and increased effort in every line of endeavor.

Come to the Didsbury Exhibition and take home with you the experience of others in your particular line of work.

Bring out the best you have and show the world what you are doing.

JUTLAND NEWS

The Burnside correspondent has a suspicion that we took a relapse, perhaps so; who wouldn't with present conditions. Prospects are looking very promising for a general starvation for man and beast in our vicinity. Burnside, of course, is enjoying all kinds of rain, no wonder the correspondent there feels so spry.

The camp meetings and Sunday school convention caused the services and Sunday school in our school to be lifted this

last five weeks or so, but Sunday school will be opened again next Sunday at 2 p. m., sharp, and services the following Sunday at 3 p. m. and regular services again after that.

Some of our industrious farmers are trying to cut some hay. The crop is very light though, but the thought of the long next winter and no prospects of any crop here whatever we must do what we can to keep our stock from starving and hope for a better growth next year. We leave it all to the Lord. He knows what is best

for us.

It takes a mean man to cause his neighbor to pay out any good money unnecessarily in these most trying times. But such was the case when an individual drove a beast belonging to his nearest neighbor down six miles south where it was impounded and cost his owner in the neighbourhood of \$30 to be restored.

Mrs. Ed. Liesemer, Mrs. Tom McCaig, Mrs. Walsh, Mrs. Van Wyk and Mrs. John Lenhan drove to near Rocky Mountain House where they are visiting at Mr. and Mrs. Wm. Hoares. They are berry picking while up there.

Last Friday a goodly number of our sports were at the Sunnyslope sports and picnic accompanied by our ball team who came home with their first defeat this year. Next Wednesday they are going to Didsbury to play the local nine.

We are sorry to learn that our local teacher, Miss Dorothy Orde is not going to continue teaching here. It is funny we can't keep a good teacher here; they are either fired or resign but when we get some unqualified or otherwise peculiar specimen we cannot get rid of them without a general uproar among neighbors. What we need is a good strict christian teacher. I guarantee such a teacher would be respected by all the children, also all the ratepayers. We will hope for such a teacher here.

BURNSIDE

Mrs. Tom Findlay and daughter Nola are spending a few

weeks vacation with Bassano friends.

Misses Claribel, Alice and Gertrude Miller were the guests of Mrs. Greer for a few days last week.

Mrs. George Metz and Mrs. John Greer spent Monday in Olds.

The Burnside U. F. A. will hold their next meeting on Friday, August 11th, in Jutland school. Mr. Wm. Irvine, M. P. for East Calgary will address the meeting. Everybody welcome. Lunch served afterwards.

Mrs. Noah Eckel took in the Olds fair last week.

HIGHLAND NEWS

The crops are looking good but a heavy rain would be appreciated.

The old baseball fan, M. Arneson, was called on to play for Sundre. He is the chief hurler.

H. Parnell is doing some real breaking. Joe is going to have some farm.

The school marm has turned into a cook and is now batching. He can't milk cows yet.

The party at Mr. Olsons was enjoyed by all. The tug-of-war was a real one and an appetizer for the lunch served later.

We might say the dance that was held after the school picnic was enjoyed by all present. The same young people are talking of starting a Sunday school. They're not so bad after all.

If some people got home earlier they might help with the chores. It seems to be a habit. Fred Admussen has been

breaking for E. Erickson. Fred knows how to handle the plow as well as the horses so we conclude he has made a good job.

Mr. Halvorsen is very poorly with rheumatism. We are all hoping for his speedy recovery.

Egil Erickson is fencing his farm, hauling lumber and anticipating the building of a house. We often wonder if he has found a cook and I guess he has. If not, why the preparations?

The steamship Rapids Prince struck a rocky ledge while shooting the Lachine rapids on Sunday with 100 excursionists on board. No lives were lost and it is thought the passengers will be got off safely.

The Castor Agricultural building and curling rink was destroyed by fire on Saturday morning.

Watch the label on your paper and if your subscription has expired help us to keep the pot boiling by remitting a little fuel-cash.

Minister Of Labor Refers To Benefits Of Conciliation Board Plan

Ottawa. A deputation representing Division No. 4 Railway Employees' Department of the American Federation of Labor, waited upon Premier King and Minister of Labor, Murdoch, and placed before them, in words of a member of the deputation, "first hand information as to the serious state of affairs that was developing owing to the application of the wage increases."

The deputation consisted of R. J. Tait, Frank McKenna and Fred Harrison, of Division No. 4, and James Somerville and J. A. McClelland, Vice-Presidents of the International Mechanics' Union.

The representations of the deputation were promised consideration by the Premier, but no further statement in regard to the interview was made public.

A statement was, however, issued by the Minister of Labor, "expressing some satisfaction at the good fortune which has so far attended Canada in the railway labor controversies prevailing in the United States and Canada, with the difference that, whereas in the United States some hundreds of thousands of workmen are on strike and many other thousands are threatening to cross work, there is not in the Dominion a strike growing out of the controversies in question."

"The advantage in the Canadian situation," said the statement, "is without doubt due to the wholesome and beneficial effect of the Industrial Disputes Investigation Act, 1907, the virtues of which, in connection with industrial disputes, have never been more strikingly illustrated than at the present time, when there are eight or nine conciliation boards actually sitting or in course of constitution."

"An aspect of the situation particularly pleasing to the Minister of Labor is the disposition shown by both railway companies and railroad workmen to conform with the requirements of the statute. This has been especially indicated in the case of the three United States lines operating in Canada, namely, the Michigan Central Railroad, the Pere Marquette and the New York Central Railroad. Each of these railways has shops in Canada, and the roads between them employ many hundreds of workmen. The workmen are members of the same unions which are on strike in the United States."

Russians Make New Proposals

Hague Delegates Suggest Arrangement for Payment of Debt

The Hague.—The new proposal in connection with compensation for confiscated property and payment of the Russian debt were advanced by the Russian delegates at a meeting with the entire non-Russian commission of the conference on Russian affairs here.

The Russians suggested an arrangement by which Russia would undertake to negotiate directly with foreigners for the payment of compensation for confiscated property and with bondholders for settlement of the Russian debt.

The Russians proposed that all the delegates, including the Russian, submit this project to their respective governments and await an answer for one week at The Hague. The Russians for the time being dropped the question of credits, as they said the non-Russians had declined credits. It was announced that the non-Russian representatives would meet later to discuss the proposal.

Russia, her representatives said, would engage to make arrangements with foreign claimants within two years.

CATARHIAL DEAFNESS

It is now relieved by constitutional treatment. RALPH CATARHIAL DEAFNESS is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running nose or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation is reduced, your hearing may be destroyed forever. RALPH CATARHIAL DEAFNESS is a constitutional remedy, thus reducing the inflammation and restoring nature in restoring normal conditions.

Circle free. All Druggists.

K. J. Cheong & Co., Toronto, Ont.

Heavy Rainfall in Toronto.
Toronto.—For about two minutes during a severe thunderstorm, here records at the meteorological bureau showed that rain fell at the rate of six inches an hour, a rate equal to almost the most terrific storms in the tropics. Lightning struck in some places in Toronto during the storm, but no serious damage was reported.

Her Two Children Had Diarrhoea Terribly Bad

Anybody suffering from bowel complaints such as diarrhoea, dysentery, colic, cholera, cholera morosa, cholera infantum, or any other looseness of the bowels, will find that Dr. Fowler's Extract of Wild Strawberry will give quicker and more permanent relief than any other remedy on the market today.

My boy Keith, Charlton, Ont., writes:—I am willing to tell you what Dr. Fowler's Extract of Wild Strawberry did for me. Last summer my children had diarrhoea, terribly bad, and they would vomit and pass a great deal of blood. I tried every remedy we could think of, but finally bought a bottle of Dr. Fowler's Extract of Wild Strawberry, and about one-half of it stopped the diarrhoea altogether. I have told several others about it, and I would not be without it in the house, as I can truthfully say it saved the lives of my two children. Price, five cents a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Norman Lambert Resigns

Giving Up Post of Secretary of Agricultural Council

Winnipeg.—The resignation of Norman P. Lambert from the post of Secretary Canadian Council of Agriculture will be presented to the council at a meeting in Winnipeg about the end of this month. It is stated here. Mr. Lambert is to take an executive position with the Maple Leaf Milling Company. It is learned, Mr. Lambert, a former Toronto newspaperman, has taken a very active part in the work of the council during recent years.

It pays to patronize home industry. Buy from the merchants in your own town.

For Hiccups and Heartburn Here is a Good Prescription

Nothing brings such satisfactory relief as slowly sipping a few drops of "Nerviline" in sweetened water. Nerviline relieves those conditions that cause the hiccups, just as it does sour indigestion, gas belching and fermentation in the stomach. For acute stomach pains, bloating, nausea, and similar ills, rely on trusty old Nerviline—the true friend of every family. Sold by all dealers, 25c per bottle.

Farmers Win In Manitoba

Provincial General Elections Give U.F.A. Majority

Winnipeg.—With some polls closing in many of the rural constituencies, which are not expected to alter the standing materially in any case, the standing of the parties outside of Winnipeg is as follows: The figures given in each case being the majority of the successful candidate over his opponent if in a two-candidate fight, or over his nearest opponent in three or four candidate contests:

Farmers—24

Saw Fly Damaging Crops

Brandon.—Wheat stem saw fly is damaging the crops in the Douglas district, according to reports from there. The extent of the damage cannot yet be ascertained.

Indications Point To Early Adjustment Of All International Debts

London.—Statements in the House of Commons that the British debt to the United States would certainly be paid—and a committee is proceeding to Washington to arrange the details of time and manner of payments—are believed here to indicate an early adjustment of the whole matter of international indebtedness.

British officials declined to discuss reports that the German indemnity is to be reduced to fifty million gold marks, in return for which France is to receive the cancellation of her debts to Britain. The placing of Anglo-American accounts on a definite footing is now intimated. This has long been held to be the keystone of the whole financial arch, on the speedy adjustment of other obligations may be expected. Treasury officials say that numerous solutions of the Anglo-French debts have been considered. One of them contemplates a reduction of the German obligations to £2,500,000,000, compared with £6,600,000,000, which is the present figure. They declare that nothing will be done pending the report of the reparations commission. There has been no suggestion that the bankers' commission should be reconvened, they said.

Berlin.—As was foreboded in its note to the reparations commission of July 11, applying for a moratorium, the German Government, it is intimated, has now sent a note to the Allied Governments asking that the monthly reparations payment, which hitherto has amounted to £2,000,000, should be reduced to £500,000 for the period ending December 31, 1924.

The commission further requests that during the same period all such payments of compensation respecting damage inflicted upon property rights

or interests of subjects of allied or associated powers in Germany, be suspended.

Greece Again

Meets Payments

Change of Government Caused Lapse in Loan Interest

Ottawa.—Greece, it is understood, is again meeting interest payments on the loan of seven and a half millions advanced by Canada, in the form of credits in 1919. When the credits were first granted, interest payments were met regularly but, following governmental changes in Greece, there was a lapse. Roumania is still in default in interest payments on the loan of twenty millions, but there is hope that they will be met eventually. On March 31, 1922, Roumania owed to Canada in interest alone, the sum of \$2,606,652.

China's Department of Finance Closed

Peking.—Minister of Finance Tang Kang closed the doors of the Department of Finance with the announcement that they would remain closed until funds could be found for the empire treasury. He predicts that President Li Yuan-tung's administration will be unable to weather the present crisis.

Steam Pipes on U.S. Warship Explode

Port Angeles, Wn.—Exploding steam pipes on the battleship, New York, flagship of the Pacific fleet, scalded one man, rendered 12 others unconscious and nearly caused a collision between the flagship and the destroyer, McBratney, as the fleet was returning to this port from maneuvers.

Had Your Iron Today?

Work Brains—Not Digestion

HERE'S an ideal hot-weather luncheon!

Two packages luscious Little Sun-Maid Raisins—one cool glass of milk. Big men don't need more.

290 calories of energizing nutrient in the little raisins. Pure fruit sugar, practically predigested so it acts almost immediately, yet doesn't tax digestion and thus heat the blood.

There's fatigue-resisting food-iron also in this luncheon.

Vital men eat like this and resist the weather. Don't work their digestion because they want to work their brains.

Try it for a few days and you'll feel better.

Mr. M. S. Daly wishes to announce that he has leased the garage in the old Opera House building to T. F. Brown, of Oakland, California, who he states is a reliable expert mechanic having had considerable experience with the Standard Oil Co. at Atlantic City, N. Y., as well as being a qualified U. S. naval electrician. He was connected for some time with Hall-Scott Motor Co. of California. You will find his opening announcement in another column.

Mr. Henry Siebert of Kansas is visiting with his father, Mr. Wm. Siebert of Siebertville. Mr. Siebert travelled up here by auto passing through several of the southern states and the total mileage he will have covered when he reaches home will be over 7,000 miles.

Jim Phillipson is sporting a shide over one eye. No, he wasn't in a scrap. It's just one of the ills of that flesh is heir to a bunch of slyes on the eyelids which makes it pretty sore.

AROUND THE TOWN

Mr. and Mrs. A. E. Ryan and little daughter returned from their holiday at Banff this week.

Miss Ethel Burgess is spending her holidays at her home here.

Mr. Alastair Watson of the Royal Bank staff here is relaxing at Redcliffe for two weeks.

Mrs. J. Brett of the Union Bank is spending his holidays at Gull Lake.

Mrs. James Bailey, who has been visiting with Mrs. J. Russell, left for her home in Calgary on Wednesday.

Warm! it certainly is. On Tuesday the thermometer registered 96 degrees. It's too hot and dry for human comfort.

Mr. J. Baumann returned from his holidays at Lacombe and Gull Lake on Monday morning.

Mr. H. Reiber and family motored to Sylvan Lake on Tuesday, where they are going to spend a month's holidays.

The C. P. B. announce that week end trains to Sylvan Lake and return from Red Deer will be discontinued after this week end.

A small whirlwind struck Tom Macdonald's home on Monday afternoon and tore down all his fences.

A dance will be held in the Melvin school on Friday, August 11th. Ladies please bring refreshments. Good music will be provided.

Mr. R. Y. Laddlaw and family left by car on Monday for Pinder Creek where they will take up their residence for the future.

Mr. Fred Moele and family with their visitors left on a motor trip to Banff on Monday. The party made two carloads and an auto mechanic was taken along in case of accidents.

Rev. Mr. Greer will have charge of the services in Knox church on Sunday, while Rev. Mr. Marshall (not Davy) will officiate on the following Sunday.

Miss Jean Russell, who has been visiting relatives in Cochrane for a few weeks returned home on Tuesday bringing with her a little friend, Miss Edna Brown for a visit in Didsbury.

Any person who has not received one of the Didsbury Fair Prize Lists should call on Geo. Wrightsworth, Secretary, or J. V. Berscht, Manager and receive one. Prize lists will also be mailed to any person phoning or writing.

Get in your entries early and save confusion at the last minute. All entries must be made by Tuesday, August 15th. This ruling is being strictly enforced by the Dept. of Agriculture at Edmonton.

Dr. G. M. Reid of Keith Sanatorium, Bowness, one of our old timers was visiting in town for a few days this week. He states that it is much cooler down by the Bow river than it is in Didsbury.

Mr. and Mrs. Bob Grosland returned from their vacation on Wednesday last. Bob was visiting around in northern Saskatchewan for a few days and he states that after all he has seen Didsbury is still good enough for him.

Miss Zella Gressman left for Carver, Miss., last week to visit her sister Laura. (Mrs. S. C. Bowman) but unfortunately Mrs. Bowman died before she reached there.

The W. C. T. U. will "serve" dinner at the Fair Grounds on August 18th. Price 50 cents. Proceeds will be used for Social Service and Temperance cause. Any donations will be gratefully received. Committee in charge Mrs. J. V. Berscht, Mrs. W. Daniels, Mrs. H. Reiber and Mrs. H. Hermansen.

Mr. Herb Liscemer, L. D. S. J. D. S., will open up dental parlors in the Leuzler block on August 11th. Herb is one of our local boys who has made out in the study of his profession and is to be congratulated.

on obtaining his degree. His many friends throughout the town and district will wish him every success in his career.

Mr. and Mrs. L. A. Loveland from Didsbury are visiting with Mr. Sam Miller and family at Cloverdale B. C. They are going to take the boat at Vancouver, for Oxmond, California. Their many friends wish them a safe journey.

Mr. and Mrs. J. V. Berscht and family returned from their holiday at Sylvan Lake on Monday.

Mrs. W. O. Zimmerman left on Thursday last for a visit to friends in Manitola. Mr. Zimmerman spent the week end in Banff.

NOTICE

To whom it may concern:—Mrs. Carrie Engen Wags having left my home, my bed and board without cause, I will not be responsible for any bills she may contract in my name.
